Meeting ID: ██████████

Passcode: ████████

Find link in email

Most often you will get the link in an email. Clicking it will launch the ZOOM application or give you the chance to download it if you don't already have it.

The screenshot shows a web browser window with the URL <https://us02web.zoom.us/j/88978012384?pwd=cGxJa0pJbExSM0FFWEtIMmtJYzNodz09#success>. The Zoom logo is in the top left, and 'Support' and 'English' links are in the top right. A system dialog box is open in the center, with the following text: 'This site is trying to open Zoom Meetings. https://us02web.zoom.us wants to open this application. [] Always allow us02web.zoom.us to open links of this type in the associated app'. Below the dialog are 'Open' and 'Cancel' buttons. The main page content includes the text 'When system dialog prompts, click **Open Zoom Meetings**.' followed by a horizontal line and the instruction 'If you have Zoom Client installed, [launch meeting](#). Otherwise, [download and run Zoom](#).' At the bottom, it says 'Copyright ©2020 Zoom Video Communications, Inc. All rights reserved. Privacy & Legal Policies'. A blue speech bubble icon is located at the bottom right of the page.

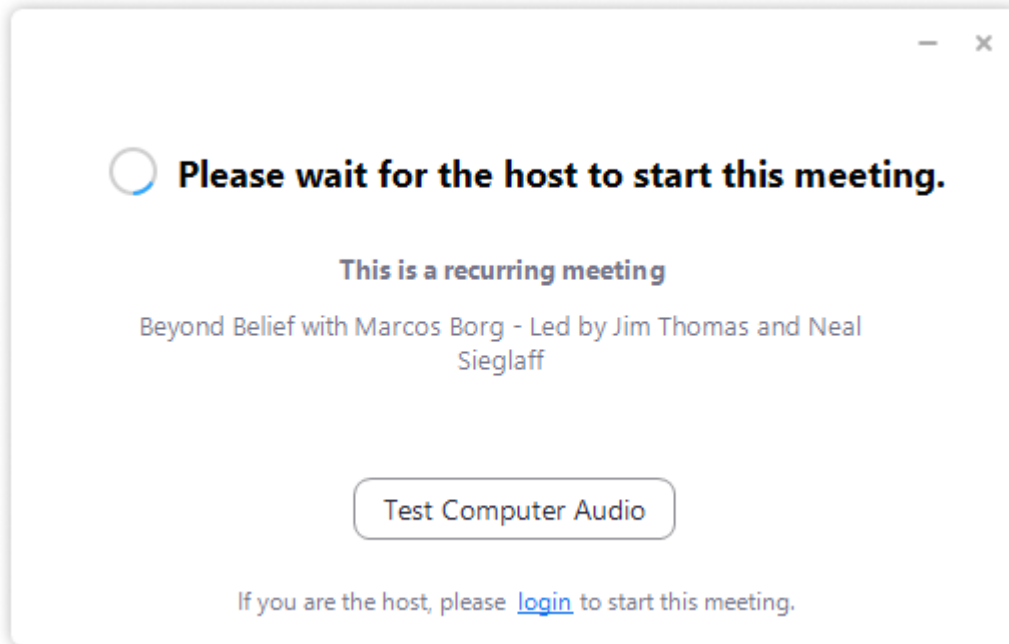

When system dialog prompts, click **Open Zoom Meetings**.

If you have Zoom Client installed, [launch meeting](#). Otherwise, [download and run Zoom](#).
